

In October 2026, every AI request your organisation made — from developer tools, AI agents and applications — went through Forgebench: checked against policy, kept within budget, and attributed to a team, agent or person.

WORTH A LOOK

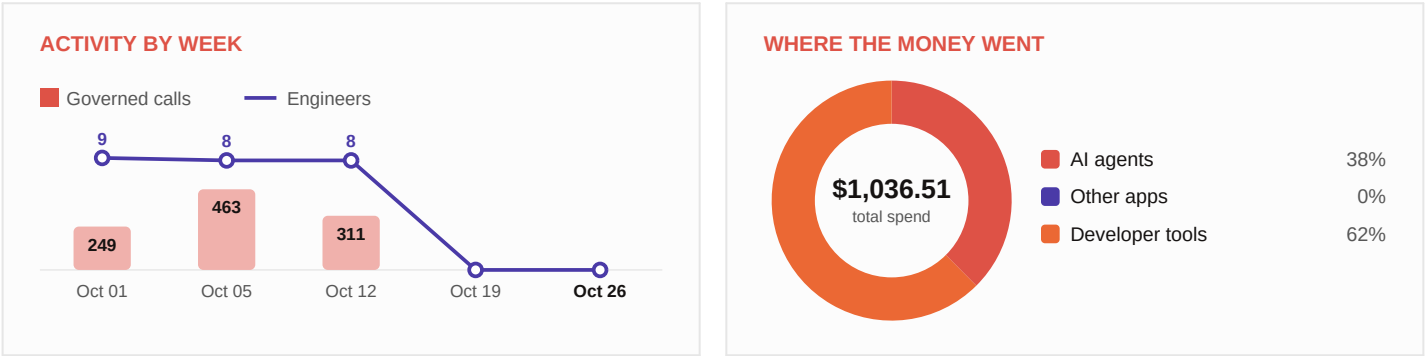

NEEDS ATTENTION	2 agent(s) at or near their own monthly budget catalog-enricher (100%), fraud-alert-explainer (83%).
KEEP AN EYE ON	1 registered agent(s) have never made a call Registered more than a week ago and still unused.

THE PLATFORM AT A GLANCE

ENGINEERS USING AI 9 / 13 69% of the workspace	GOVERNED CALLS 1,023	AGENTS ACTIVE 7 / 8 registered agents	AI SPEND \$389.10 +\$647.41 developer tools	SAVED \$683.20 caching + routing
PRS SHIPPED 0 129 AI sessions	AGENT TOOL CALLS 612 none blocked	SMART-ROUTED CALLS 0 0% of all calls	POLICY FLAGS 0 9 requests stopped	BUDGET USED 16% \$389.10 of \$2,500.00

What stood out

The highlights behind the numbers this month.

HIGHLIGHTS

DEVELOPERS	Developers are using AI day to day Claude Code was the most-used developer tool (100% of sessions); the Platform team leads adoption at 100% of the team.
AGENTS	support-summariser is the costliest agent at \$102.00 26% of all agent spend. 0 new agent(s) this month; 7 of 7 active agents have their own budget.
TOOLS	get_ticket_thread was the most-used tool (256 calls) 4 connected tool server(s), 0 registered tool(s) and 0 shared skill(s) available to agents.
SAVINGS	\$0.00 from smart routing, \$683.20 from caching 4 model(s) in use under one policy; 0 call(s) kept running by automatic fallback.
